

PRESS RELEASE

Signing Ceremony of the Collaboration between Malaysian Technical Standards Forum Bhd (MTSFB), Malaysia and Telecommunications Technology Association (TTA), Republic of Korea

Cyberjaya, 18 May 2010

The Malaysian Technical Standards Forum Bhd (MTSFB) and the Telecommunications Technology Association (TTA), Republic of Korea have reached an understanding to collaboration on ICT standardization program to bridge the standardization gap between the two countries as well as other regional countries. This is in line with the International Telecommunication Union (ITU) which also recognized standardization gap as an important topic to fulfill its objective, in particular, ITU Strategic Plan for 2008-2011 (Resolution 71 of ITU Plenipotentiary Conference). There are many countries in Asia-Pacific region have been facing standardization gap due to lack of human and capital resources as well as technological expertise.

The collaboration is documented and signed in the form of Record of Discussion (RoD) and the signing ceremony was held on 18th May 2010, at the Malaysian Communications and Multimedia Commission (SKMM) represented by YBhg. Dato' Ismail Osman, Chairman of MTSFB and Mr. Jongbong Park, Director, Standardization Coordination Team, TTA.

MTSFB would like to express our gratitude to be invited by SKMM to collaborate with TTA on standardization matter as well as for the commitment and support given.

MTSFB recognizes the important role played by this collaboration and confident that the joint activities particularly the upcoming Workshop and Training Session will take its work a step forward, leading to common views on some of the various issues of telecommunication and standardization in our respective country as well as the region, and further to make a contribution to the international level.

The Signing and Exchange of Record of Discussion (RoD) between MTSFB and TTA

YBhg. Dato' Ismail Osman, Chairman (MTSFB) and Mr. Jongbong Park, Director, Standardization Coordination Team (TTA), witnessed by Mr. Ahmad Razif Ramli, Director, Technology Standards & Network Division (SKMM)
